

Star-t Learning

The Bible says the wise men followed a star to Bethlehem. What do you know about stars? Read these fun facts to learn more!

STARS ARE GIANT BALLS OF BURNING GAS. YOU CAN SEE MANY OF THEM WHEN YOU GO OUTSIDE AT NIGHT!

THE CLOSEST STAR TO THE EARTH IS THE SUN.

OUR SUN IS AS BIG AS 109 EARTHS!

SOME PEOPLE BELIEVE THAT LOOKING AT THE STARS CAN TELL US SOMETHING ABOUT OURSELVES AND WHAT THE FUTURE HOLDS.

CONSTELLATIONS ARE GROUPS OF STARS THAT SEEM TO MAKE A PICTURE IN THE SKY.

DEPENDING ON WHERE YOU ARE IN THE WORLD, YOU WON'T ALWAYS SEE THE SAME STARS!

SOMETIMES PLANETS FROM OUR SOLAR SYSTEM LIKE MARS AND JUPITER CAN BE SEEN FROM EARTH. EVEN THOUGH THEY LOOK LIKE STARS, THEY'RE REALLY NOT!
